Woe, The Luck

Dan Hicks & His Hot Licks

If I was to gather all my thoughts together
Try to summarize the life Iâ€™ve led
It would be safe to say, luck was on my side
Luck was with me on the ride
Fortune was to come to me early
Accepting a love quite naturally
Then the realization luck was on my side
Luck was with me on the ride

Ch.
Woe the luck, more luck than he could use
Woe the luck, that got him so confused
Woe the luck, the luck he first loved, later hated
OK, who could deny luck was on his side?
OK, who could deny luck was on his side?
Was there nothing he could be denied?

Surrounding myself in everything I wanted
As my lucky streak went on and on and on
Little did I realize, no I did not know
What the lucky man must know
Itâ€™s no use to think my life couldâ€™ve been without it
For the luck I had was surely meant for me
Now Iâ€™m on the question how was I to know
For this luck, I had to give my soul

Ch.
Woe the luck, more luck than he could use
Woe the luck, that got him so confused
Woe the luck, the luck he first loved, later hated
OK, who could deny luck was on his side?
OK, who could deny luck was on his side?
Was there nothing he could be denied?
Was there nothing he could be denied?
