

Airheads

Roger Taylor

Red light warning
Break down coming
Red light warning
People round here
Call me an airhead
People round here
Know I like a bottle of wine
People round here
Think I'm better off dead
The folks round here
Call me an airhead
The folks round here
Ain't too refined
Break - down - comin'
Raw - nerve end - tingle
Cops - bust - run in
Speed - hurts - keys jangle
Airheads - stick together
Airheads - till the end of time
Airheads - don't know better
Airheads - I feel fine
Brain - on - bed - Where am I
Liverpool - Leeds - Miami
Real nutcracker this morning
Real nutcracker last night
Red light warning
No panic station
People round here
Call me an airhead
People round here
Say I've got space for brains
People round here
Are no better than junk food
The jerks round here
Should go play with the traffic
The folks round here
Should go play with the traffic
Break down comin'
