Never Goodbye

Lethal Injektion

And to you my friend, that once was alive
We used to stay up and laugh all night
And you are there and Iâ€™m right here
Now itâ€™s my time to say goodbye

Well itâ€™s never goodbye
It will always be later
And itâ€™s never goodbye
It will always be later

You never know when your times up
Stay close to the ones you love
Cause you never know when itâ€™s time to go
Remember every moment
Cherish and keep on holding
I lost my pop to soldiers
Taken without no warning
Life goes on so they say
Even though your gone away
Some things around have changed
Iâ€™m still carrying on your name
Think about you every day
Some harder than other days
Itâ€™s never goodbye, just a reunion at a later date

And you are there and Iâ€™m right here
Now itâ€™s my time to say goodbye

Well itâ€™s never goodbye
It will always be later
And itâ€™s never goodbye
It will always be later

And to my loves that were once in my life
We used to be, be alright
And you are there and Iâ€™m right here
Now itâ€™s my time to say goodbye

Well itâ€™s never goodbye
It will always be later

And itâ€™s never goodbye
It will always be later
