

# Jungle (IJsbreker)

## Tash Sultana

[Verse One]

I see the way you move  
It's fluid  
Be here by my side  
Got nothing to hide Now that you're hurting  
I see the tears behind those eyes  
And I can't wipe them clear  
Your love is like gold to me  
But you hold me closer to the light  
You will not find a bullet inside  
Unless you magnify But you throw me into the deep end  
Expect me to know how to swim  
And I put my faith in someone else  
Cause I will be just fine [Chorus]  
Welcome to the jungle  
Are you gonna dance with me  
Welcome to the jungle  
You got to close your eyes and see  
Welcome to the jungle  
Are you gonna dance with me  
Well hold on  
Well hold on [Alternate Verse]  
Suit and tie with the black jeans on  
And I'm paralyzed  
Cos' I think you got something like the biggest soul I've ever seen  
And I think you're the one Suit and tie, with the curly hair  
Making your way with that step and stare  
So tell me real, do you feel anything [Verse]  
Ashes to ashes  
And the embers are ablaze  
Oh, I gotta rise amongst you, though  
Then I think about your face every day But you pull me closer to the light  
You wouldn't find a bullet inside  
Only if you magnify [Chorus]  
Welcome to the jungle  
Are you gonna dance with me  
Welcome to the jungle  
You got to close your eyes and see  
Welcome to the jungle

Are you gonna dance with me  
Well hold on  
Well hold on[Guitar Outro]
