

# Multi-Colored Love

## Sunni ColÃ³n

Multi-colored love.  
Can you feel the power, all we see tonight.  
Multi-colored love,  
Can you feel the power, all we see tonight.

You think I'm normal, you think I'm normal.  
I think I'm crazy, I think I'm crazy.  
I try to warn you, I try to warn you.  
I'm like danger, I'm like fire

Still burning up the flames  
Acid to rain  
Some can't hang with the thunder  
The black might roll on pink  
If we came out the same, ask him what's wrong with me.  
I get lost in the thunder.  
Get lost, get lost, lost in...

Multi-colored love,  
Can you feel the power, all we see tonight.  
Multi-colored love,  
Can you feel the power, all we see tonight.  
I'm not immortal, I'm just a mortal.  
And know we're changing, that's amazing.  
You ever wonder, you ever wonder  
Cause every day seems just like a daydream

Still burning up the flames,  
Acid to rain.  
Some can't hang with the thunder  
The black might roll on pink  
If we came out the same  
What the fuck happened to me  
I get lost in the thunder  
Get lost, get lost, lost in...

Multi-Colored love,  
Can you feel the power, all we see tonight.  
Multi-colored love,

Can you feel the power, all we see tonight.
