Out in Space

S.P.O.C.K

Late at night, stars shining bright
on me, down by the seaAnd when I see them in the sky
constantly I'm asking why
I was stranded here
I wish I could be
Out in space
I dream away, I don't want to stay
in a world that's so absurdI wish we had a moon or two
like some other planets do
why was I born here?
I wish I could be
Out in space
