There She Goes

Noah Young

I've been searching for the right words to let you know I care
And tried to find the best way to not be insincere
With every word I say to you I'm wanting you to hear I love you
And if love is like rain I'm gonna make it snow
If you don't feel like holding on I'm never letting go
With every word I say to you I'm wanting you to know I love youWell maybe I'm coming on strong
I feel like I've waited too long
Maybe my chances are already goneChorus:
Wide awake I can't sleep you're on my mind tonight
Oh there she goes
Fast asleep she won't be dreaming about me tonight
Oh there she goes
She takes one more look at me and I fall apart
I can't stand the thought of her hating me it just breaks my heart
It just breaks my heartAnd I can't bear to see you leaving me just strait up walk away
Because every time I see your smile it brightens up my day
Like the stars in the sky need a place to shine I need you
And the more you say you're mad at me the more I want to change
And the closer that you get to me the closer I'm in range
And the moments that I had with you were moments I could say
You loved meWell maybe I'm coming on strong
I feel like I've waited too long
Maybe my chances are already goneChorus:
Wide awake I can't sleep you're on my mind tonight
Oh there she goes
Fast asleep she won't be dreaming about me tonight
Oh there she goes
She takes one more look at me and I fall apart
I can't stand the thought of her hating me it just breaks my heart
It just breaks my heartI can't stand the thought of her hating me it just breaks my heartChorus:
Wide awake I can't sleep you're on my mind tonight
Oh there she goes
Fast asleep she won't be dreaming about me tonight
Oh there she goes
She takes one more look at me and I fall apart
I can't stand the thought of her hating me it just breaks my heart
It just breaks my heart
