

# Almost Dead

## Dark Reflexions

No more gods, no more graves  
Are you friend or fiend?  
No more life, no more death  
Somewhere in between

No more gods, no more graves  
Are you friend or fiend?  
No more life, no more death  
Somewhere in between

Well, we're almost dead  
Almost dead  
Almost dead to the world  
Almost dead, almost dead  
Almost dead to the world

Heaven can't save us  
Hell is a joke  
No place left to go  
What you see you can not believe  
But when we rise you'll know

Well, we're almost dead  
Almost dead  
Almost dead to the world  
Almost dead, almost dead  
Almost dead to the world

Well, we're almost dead  
Almost dead  
Almost dead to the world  
Almost dead, almost dead  
Almost dead to the world

Well, we're almost dead  
Almost dead  
Almost dead to the world  
Almost dead, almost dead  
Almost dead to the world

Well, we're almost dead
