

Wonderful Night (4x4 Mix)

Fatboy Slim

Yeh, yeh yeh yeh yeh
Uhm hmm hm hmIt's a wonderful night
You've gotta take it from me
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it for me
It's a wonderful nightCome on and break it on downIt's a wonderful night
Everybody can see
It's a wonderful nightCome on and break it on downIt's a wonderful night
Go ahead and release
It's a wonderful nightCome on and break it on downYou know the music search engine need a tuneup
Soon as they out the gate they all a want to hear da corner, uh-huh
Well that was cool but now but then I heard a rumor, uh-huh
Your crew was ridin' for the White Cliffs of DoverUh let me tell ya how we do it in California
We'll have you on the run just like a puma
If it don't move us
Ain't paid ya dues and it ain't gonna get our roosers
We gonna lose ya to the consumer solution c'monIt's a wonderful night
You've gotta take it from me
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it for me
It's a wonderful nightCome on and break it on downGirl I want it you got it
Your body's like a narcotic
The thought is auto-eroticCome on and break it on downCan I get it on credit
I guess your brick-house I'll bet it
Take it as far as you'll let itCome on and break it on downThat the spot will get hot
That its ready to pop
Don't even look at the clock
All of your problems forgotten
It's time to rock till you drop
Feel the force and just flock
To the epicenter of the party's bass drummers c'monIt's a wonderful night
You've gotta take it from me
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it for me
It's a wonderful nightCome on and break it on downWe gonna stimulate your mind
Everybody's high
Eyes just like a child
Everything feels rightOnce you've seen the light
You're gonna move all night

Feel your soul ignite
Everything feels right, right, rigggggggghhtWe live the masterful life that's mythical
Feel its chords and its vibes atypical
Do what you want
It's alright this mystical time you've got
That's a lot of this principleIf you stay in this moments so critical
Let the music change your brain stem's chemicals
Make you feel like your spirit's invincible
Force centrifugal reaching up to your pinnacle nowIt's a wonderful night
You've gotta take it from me
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it for me
It's a wonderful nightCome on and break it on downWe rock like Colorado
You're at it throwin' bottles
We give a fuck about who your status
Who you are tomorrow
Whether you beg or borrow
Or hit the super lotto
Whether your girl look like a minga or a supermodelFeel the connectedness, energy, disprojected the weighted
The whole collective consciousness
Arise like helium oh
Groovin' out of the question
Won't disrespect him, but
Our styles fuckin' pouch like Dave Beckham c'monIt's a wonderful night
You've gotta take it from me
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it for me
It's a wonderful nightCome on and break it on downThe truth I'm at 'em and rough 'em
As hard as the granite get
Never hesitant upon a mic strike, quick
Like an avalanche
Hijack ya like a Comanche
I'm a man on a mission
Rhyme vigilante
Keep all the jealous and the envious antsy
Love to do the club though with the party people dancin' uh-huh
And set the mood for all the plottin' and romancin'It's a wonderful night
We've got the answer c'mon
It's a wonderful nightCome on and break it on downIt's a wonderful night
You've gotta shake it
