

What U R 2 Me

After 7

A thousand words for why I loved you
Girl, I could go on all night telling you why it'll be true
Let's stretch out on my leather couch under our eighteen by twenty-two
I cannot try to explain it baby how can say it to you Girl you're the rest of my life and all
And you come whenever I call
Girl I just wanna say it
I thank you from the bottom of my heart That's why baby, what u r 2 me no one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feeling from taking over and over
And I know I can't stop it girl, you're mine you're mine, yeah I can understand why you want your space
Give it all some time to let it soak into your mind, well
Searching all my life for a woman like you
I'm gonna do exactly what my precious heart tells me to Oh girl, you're the rest of my life and all
And you come whenever I call, girl
And baby I just wanna say it
I thank you from the bottom of my heart Ooh, ooh, baby, what u r 2 me no one else can be, yeah
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feeling from taking over and over
And I know I can't stop it girl, you're mine I know that you've been hurt before by men who swear it all baby
But I just wanna say, wanna take it day by day
Wanna pick you up whenever you
Pick you up whenever you fall, yeah Ooh, ooh, baby, what u r 2 me no one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feeling from taking over and over
And I know I can't stop it girl, you're mine Ooh, baby, what u r 2 me no one else can be baby
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feeling from taking over and over
And I know I can't stop it girl, you're mine Ooh, ooh, baby, what u r 2 me no one else can be
Ooh, and I think I'm in love baby
Ooh ooh, baby just can't stop this feeling from taking over and over
And I know I can't stop it girl, you're mine
