

The Way Out

Porcelain Raft

Lost in heaven try to make upon

New York shut down tonight

It's...

Where do we go from here?

Tonight feels real I'm in here, all ready to be found

I try to see sharks off the ground

Where do we go from here?

Tonight feels real

Treason only through the way

Breaking the ground...

The way out

Way out, way out Is it all the reason for you

Not to stay that's all we know

Where do we go from here?

Tonight feels real All the things

The cage we are in now

The things

That is waiting to be found

Be found, be found

Treason only through the way

Breaking the ground...

The way out

Way out, way out
