Taste Of Ashes

Straight Line Stitch

Let them pull the wool over your eyes
(No hope for the fallen)
Misconceptions of a false paradise
(These words are unspoken)
The blind leading the blind but I decline
(We walk the straight line)
The one who holds the truth be divined
(Death is forever)
The writings on the wall now the mighty fall (x3)
Divided we cannot stand bury your head into the stand
Killing the fat of the land an albatross across your neck
(Thorn in your side)
Don't be afraid of the dark you're still held up by the stars
The light will carry us over
The dice have been cast & your position must be steadfast
(We are the chosen)
Let no man pull us under never deter
(There is no contrast)
You can't always crucify what you don't understand
(Beware of the vampire)
And this time you'll see who has the upper hand
(The world is a wasteland)
Don't be afraid of the dark you're still held up by the stars
The light will carry us over
When all this time has gone by you'll stop & ask yourself why
The light will carry you over
Open up your eyes
(Read between the lines)
However long the night the dawn will break
However long my eyes are closed I'm wide awake
Stand, stand, stand up & fight (x2)
It won't be long before this candle burns again
Don't be afraid of the dark you're still held up by the stars
The light will carry us over
When all this time has gone by you'll stop & ask yourself why
The light will carry you over
However long the night the dawn will break
However long my eyes are closed I'm wide awake
Stand, stand, stand up & fight (x4)
