False

Naked Heart

Expose yourself
As being honest living a good Christian life
Pretend to care for the really poor
With your charity they'll survive
TV-shows to raise huge funds
For refugees left to die
Flee from poverty, caused by war
Fought with weapons your providedThe truth, a bunch of lies
The majority believes
Religion a legal way
For murder, as they pleaseMalnutrition, civil
War millions live in poverty
For your last hope
Give what you can spare, religion means cash.Creating wars to sell more arms
Buying governments, peace denied
Multinationals don't care for life
Bigger profits is their goalThe more I see
Strengthens my opinion
That you are polished shit
And I won't be a part of what you claim to be.
