

Rise Up

Pennywise

Well it's up to you what you really want to do - take time - to find a way
Focus on your vision you're on a secret mission
Ignore what the masses say
Well it's up to me what I really want to be
We got to fight we got to feel we got to know that this is real
And I'm still searching for the day
If we're going to win this race
We gotta rise up open our eyes up
Take this vision and stop another casualty
You want it all for free then you'll get nothing
That's the way its gotta be
Well your point of view it belongs to you - no one - can take it away
Dare to envision hold on to your decision

Well it's plain to see all the loss
Take control of each passing day
And tragedy you can watch the worlds slow decay
Or we can change our destiny our visions never gonna change
Focus on your vision you're on a secret mission
Life's not free yeah who you gonna be yeah another victim of society
Take this vision and stop another casualty
Well it's up to you what you really want to do - take time - to find a way
Ignore what the masses say
You want it all for free then you get nothing
But you don't listen - you're on a mission - searching for another way
We gotta rise up open our eyes up
That's the way its gotta be
