

Suicide

Kai Tracid

Have you ever thought about committing suicide?
Leaving the world behind?The sorrow, the pain and the fear
of the unknown futureDelivering from any human needs and pressure
in just one secondYour cry for help is lost in this lonely world
in which you are completely aloneNobody helps you when you're feeling down
and the loneliness is breaking your heartIt would be so simple to go down
the stairs of the final wayBut the fear of the unknown world beyond,
of having nothing, of being nothingKeeps you on your designated way
and takes away your longing for self-destructionThat is why
you will never commit suicide
