Starting To Live

Reamonn

Shooting stars wont bring us down tonight
Were racing through these streets of paradise
Wake up, Wake up
Open your eyes
Revolutions ripping up the skiesYou feel youre starting to live
You feel your loosing control
You only get what you give
So let the chemicals flow
The chemicals flowCome on take a roller coaster ride
Theres no on in the universe tonight
Wake up, Wake up, youve arrived
Were lighting up the streets of paradiseYou feel youre starting to live
You feel your losing control
You only get what you give
So let the chemicals flowOh, you feel like youre in Overdrive
Oh, your shooting stars pass you by
You feel youre starting to liveOh you feel like youre in overdrive
Oh shooting stars pass you by
You feel youre starting to live
You feel youre losing control
You only get what you give
So let the chemicals flow
Yeah your losing control
A chemical flow
Its just a chemical flow
Its just a chemical flow
Its just a chemical
