Angels On Earth

Tiffany Evans

Have you ever walked down a dark road
not sure which way to turn
or been the passenger in a speeding car
so afraid u might get hurt

somehow someone saved me
an invisble hand and a instrucatable love

there are angels on earth
there right by your side
your saved and you cant explain why
when you think your alone
and no one can hear your pray
angels on earth will be there (o yeah)

have you ever wished upon a shining star
hoped that your wish will come true
or watched somebody you loved passed on
but strangely your not alone

somehow somthing guides you
an invibile hand
the most fearful love

there are angels on earth
there right by your side
your saved and you cant explain why
when you think your alone
and no one can hear your pray
angels on earth will be there

forget when your in a hole
their right there to bring you home (o yeah)
just close your eyes
and theyll help you to fly

there are angels on earth
there right by your side
your saved and you cant explain why
when you think your alone

and no one can hear your pray
angels on earth will be there
