

Stackin

Wiz Khalifa

Advisory - the following lyrics contain explicit language:

Fell asleep in my first class seat
Got so much leg room
Dont care if you lean back in front of me
Plus my hotel rooms a presidential suite
Rolling presidential no election
Bought the floor I for the set look like its residential
Cant just call you got to schedule in or let me know ahead?
My time is money if you talking then I hope its bout some bread
Aint nothing like them other niggas
Naah they dont even compare
Got reefer flowing through my body
Money growing out my hairHook
I wouldnt say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that im making
Smoking drinking all this got me thinking
Stacking every dollar that im making
I smoke, you smoke, we smoke lets smoke away we go
I smoke, you smoke, we smoke lets smoke away we goI probably took some time off cause I was bored of the
game
I probably missed your call cause I was boarding the plane
Or some other shit
Now roll some weed Put some hash in
Light that tree up and pass it
All these clothes in my closet
Like I need all this fashion
And this car that im driving
Made for speed not for crashing
If you smoking I got it

Being broke's not the object ya feel me Hook
I wouldn't say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that im making
Smoking drinking all this got me thinking
Stacking every dollar that im making
I smoke you smoke, we smoke lets smoke away we go
I smoke you smoke, we smoke lets smoke away we go X4
Smoking weed and rolling weed
Should leave with them and roll with me
Im in the sky Im in the clouds
I take my time I break it down Hook
I wouldn't say I do too much but hate
I do just enough to get by
And I done been a lot of places in my day
But I never been this high
Smoking drinking all this got me thinking
Stacking every dollar that im making
Smoking drinking all this got me thinking
Stacking every dollar that im making
I smoke you smoke, we smoke lets smoke away we go
I smoke you smoke, we smoke lets smoke away we go
