It's All Love

Rock Star Supernova

Everybody likes a easy way out
Nobody tells it like it is no more
You took a hit and then you blew it out
The light inside that shined before
Never had a heart to love this much
Never felt enough to call it hate
If you can let a thing screw you up
It's not too late
It's always so close then you pull it away
And anything goes, then it goes astray
And what are you left with at the end of the day, yeah
It's all love, it's all love, it's all love, yeah
Nothing left but the sound of doubt
Pouring out the heart that you live in
No one tried to help you figure it out
Does anybody see the signs you're given
Never had a heart that loved this much
Never felt enough to call it hate
If you can let a thing screw you up
It's not too late
It's always so close then you pull it away
And anything goes, then it goes astray
And what are you left with at the end of the day, yeah
It's all love, it's all love, it's all love, yeah
Is anybody listening to what I'm trying to feel, I wish I knew
Is anybody feeling anything that's real, I wish I knew
Is anybody really gonna help me fill this hole inside of you
It's always so close then you pull it away
And anything goes, then it goes astray
And what are you left with at the end of the day, yeah
It's all love, it's all love, it's all love
It's always so close then you pull it away
Anything goes, then it goes astray
What are you left with at the end of the day, yeah
It's all love, it's all love, it's all love, oh
