Too Late

C21

Hold on we've just begun
we're still looking for a place in the sun
so don't give up on one mistake
'cause I know it's you and I what ever it takesOk I know I was wrong
to hurt the someone to whom I belong
I feel so lost and I need to know if your heart
really wanna let me goIs it too late to say I'm sorry
The things that I've said the way that you feel
Tell me girl
Is it too late to say I worry
About youAfter all you know me well
I'm not always completely myself
my intensions don't seem to fail
when it comes to you 'cause I know this love is trueIs it too late to say I'm sorry
The things I've said the way that you feel
tell me girl
Is it too late to say I worry
I wan't you to see that I can be
Anything to be by your sideI just want you to know - hey ahh
you were never really out of my dreams
baby don't let me go know let me stayIs it too late to say I'm sorry
The things I've said the way that you feel
tell me girl
Is it too late to say I worry
I wan't you to see that I can beTell me girlIs it too late to say I'm sorry
The things I've said the way that you feel
tell me girl
Is it too late to say I worry
I wan't you to see that I can be
Anything to be by your side
