Swallow

Maren Ord

Just smile and swallow
Nod your head and look away
Raise your chin and walk away
That's the best wayWell, you know, I know
Well, we both know
That this is going to be hardSo when you go
Don't you swallow
All the words that I've spoken
Because it's all okay
We're both protectedWell, I hate it that
There's gonna be some kind of deadline
Between you and me
Well, you know that's the best waySo when you go
Don't you swallow
All the words that I've spoken
Because it's all okay
We're both protectedIt's all okay
We're both protectedSo when you go
Don't you swallow
All the words that I've spoken, yeahSo when you go
Don't you swallow
All the words that I've spoken
Because it's all okay
We're both protected
