On For You

Kathryn Williams

The streetlights are on for you
Shine behind your curtains
A carnival of cars on wet
Bring shell sounds of oceansYou light your fire
And don't look down
I watch the last light turn off in your flat
And silence the townI'm inside the dark for you
You're still shining
Look at the mess i've made
The path i've given youBut you light your fire
And don't look down
I watch the last light turn off in your flat
And darken the town
