

# Mary Ann

## Meg & Dia

She's got Tiger eyes  
and they float in across the room  
They stop on you  
and they don't move away  
She's got lips like razor blades  
they shine like moons  
Born in Tennessee  
Now she's got it out for me Mary Ann  
won't you leave me alone for a While  
Can't you see I'm feeling  
hunted down  
can't use mine and  
this time  
you won't find your way in  
Mary Ann  
won't you leave me alone for a while  
alone for a while  
Mary Ann  
won't you leave me alone for a while  
alone for a while Now I seen that look of yours two years ago  
It's all a game to you  
but now I can play it too  
Hard as hell to  
find a good man and I  
I gave him all of me  
you won't take him bad, he's \*\*\* You walk to him  
pull up your skirt to sit down  
whisper in his ear  
comes so naturally  
music's loud but I still hear his voice  
The words I won't forget  
so loud and clear  
those words so loud and clear  
he said:
