

# Love Etc.

## Pet Shop Boys

You need more, you need more, you need more  
You need more, you need more, you need more  
You need more, you need more, you need more  
Boy, it's tough getting on in the world  
When the sun doesn't shine and a boy needs a girl  
It's about getting out of a rut, you need luck  
But you're stuck and don't know how, oh  
Don't have to be a big bucks Hollywood star  
Don't have to drive a super car to get far  
Don't have to live a life of power and wealth  
Don't have to be beautiful but it helps  
Don't have to buy a house in Beverly hills  
Don't have to have your daddy paying the bills  
Don't have to live a life of power and wealth  
Don't have to be beautiful but it helps  
You need more  
Than a big blank check to be a lover  
Or a gulf stream jet to fly you door to door  
Somewhere chic on another shore  
You need more, you need more, you need more  
You need more, you need more, you need more  
You need love, you need love, you need love  
Too much of anything is never enough  
Too much of everything is never enough  
Boy, it's tough getting on in the world  
When the sun doesn't shine and a boy needs a girl

It's about getting out of a rut, you need luck  
But you're stuck and you don't know how, oh  
Don't have to be a big bucks Hollywood star  
Don't have to drive a super car to get far  
Don't have to wear a smile much colder than ice  
Don't have to be beautiful but it's nice  
You need more  
Than Gerhard Richter hangin' on your wall  
A chauffeur driven limousine on call  
To drive your wife and lover to a white tie ball  
You need more, you need more, you need more  
You need more, you need more, you need more

You need love  
I believe that we can achieve  
(You need more, you need more, you need more)  
The love that we need  
(You need more, you need more, you need more)  
I believe, call me naive  
(You need more, you need more, you need more)  
Love is for free, oh  
(You need more, you need more, you need more)  
Don't have to be a big bucks Hollywood star  
Don't have to drive a super car to get far  
Don't have to live a life of power and wealth  
Don't have to be beautiful but it helps  
Beautiful but it helps, beautiful but it helps
