Blisters and Bruises

Shampoo

Think about the good things
Think about the good things too
Something happens in between
Something like good feelingSomethings getting hot when you rock it up
Somethings getting hot when you rock it up
Somethings getting hot when you rock it upYou give me blisters and bruises
You give me blisters and bruises and bruises
Oh you pretty baby, feel that pretty baby
Oh you pretty baby, touch that pretty babyThink about the good things
Think about the good things too
Something happens in between
Something like good feelingSomethings getting hot when you rock it up
Somethings getting hot when you rock it up
Somethings getting hot when you rock it upYou give me blisters and bruises
You give me blisters and bruises and bruises
Oh you pretty baby, feel that pretty baby
Oh you pretty baby, touch that pretty baby
