

The One

Old 97's

I gotta check for nothing
All made out to someone
I truly love myself Murray says were gonna take the money sometime
Well it might as well be this time
Were gonna spend it all on ourselves Ken picked this bank at random
I said, do we shoot them?
And he said, either ways alright Whistlin Boy, thats Philip, hes our drummer
He does the them from Endless Summer
You know hes waiting out in our ride Throw the money in the bag
It all worked out just like we planned Now the good times have begun
Thats not a fire -- its just the sun
Its like the old man said
Take the money and run
Whats the rush?
Lets take The One Love gets passed around so freely
Theyre so touchy and so feely
Im hanging on to mine I like you California
Although I feel the urge to warn ya
Were gonna rob you blind Whats the point in cutting tracks
With all this money in the back? Now the good times have begun
Thats not a fire -- its just the sun
Its like the old man said
Take the money and run
Whats the rush?
Lets take The One
