Be A Man

Vanessa Williams

Be a man about itMy heart is ringing like a telephone
Pick it up and dial in the answer
Oh, I'm sick and tied to be alone
Let me know if love is 'bout your afterJust be a man about it
You don't have to worry I won't turn you down
Just be a man about it
Oh, don't complicate it and let me know you'll be aroundI took you from the number one
Wait for set to be with me forever
I don't bishy yet because that are ompeyend
For you be in heaven so want youBe a man about it
Oh, don't complicate it you don't have, leave me on
Just be a man about it
Just want show to love me right, you can't go wrong if youJust be a man about it
You don't have to worry, I won't turn you down
Just be a man about it
Oh don't complicate it and let me know you'll be aroundBe a manWe could really have a good thing
But we don't know where it believed
But real we've got to keep the communication flowin'
But that's not all I need so want yaBe a man about it
You don't have to worry, I won't turn you down
Just be a man about it
Oh, don't complicate it and let me know you'll be aroundBe a man just sile it
Oh, don't complicate it, you don't have to leave me on
Just be a man about it
Just want show to love me right, you can't go wrong if youJust be a man, uh uh uhBe a man about it
Stand up for me baby
Be a man about it
I won't turn you downWe could really have a good thing
But we don't where it believe
But real we've got to keep the communication flowin'
But that's not all I need so want ya
