

Remember the words

Pefkin

You got to believe me

Remember the words

Remember the wordsWhen you're down on your knees and without a friend

Standing afraid at the very end

Back on your own, lonely and lost again, woah

Try to forget what you're going through

Think of the things that you're gonna do

Lift up your eyes, like they told you to, told you toJust remember the words, you are never on your own

You're not alone, baby, now and forever

Remember the words, you are never all alone

Not on your own, baby say never ever

Baby say never everWe go up, we go down but we never stop

We're gonna work it until we drop

Moving along, you're gonna be on top, woah

Don't be afraid you are not alone

Don't ever think you're on your own

Lift up your eyes, you will make it home, make it homeJust remember the words, you are never on your own

You're not alone, baby, now and forever

Remember the words, you are never all alone

Not on your own, baby say never ever

You got to believe meThere is a reason why you're crying

And whatever you may do

Don't forget to keep on trying

Do what you got to do, I still believe in youJust remember the words, you are never on your own

You're not alone, baby, now and forever

Remember the words, you are never all alone

Not on your own, baby say never everRemember the words, you are never on your own

You're not alone, baby, now and forever

Remember the words, you are never all alone

Not on your own, baby say never everRemember the words

Remember the words
