

# Unknown Destination

## Slaughter

From out of the dark  
The travelers approach us from the east  
That tells tales of old  
Stories of the gold and the feasts  
Don't know where they'll be tomorrow  
Ain't gonna stop on the way  
Don't show the meaning of sorrow  
Who knows how long you will stay

In an Unknown Destination  
Twenty-four hours a day  
In an Unknown Destination  
The only place we know  
Where win, lose or draw you can rage

Many see the light  
while others choose not to agree  
The courage of the brave  
While many others save it for their needs  
Don't know where they'll be tomorrow  
[?] stop on the way  
don't show the meaning of sorrow  
who knows how long you will stay

In an Unknown Destination  
Twenty-four hours a day  
In an Unknown Destination  
The only place we know  
Where win, lose or draw you can rage
