## Live to Rise

## **Soundgarden**

What if all you understand,
Could fit into the centre of our hand,
Then you found it wasn't you,
Who held the sum of everything you knew

Who held the sum of everything you knew,

We're insane but not alone,

You hold on,

And let go.Like the sun we will live to rise,

Like the sun we will live and die,

And then ignite again,

Like the sun we will live to rise again. What if the one thing that I missed,

Was everything I need to pass the test,

And if I fail what happens then,

Can I still count on you as a friend,

We're insane but not alone,

You hold on,

And let go.Like the sun we will live to rise,

Like the sun we will live and die,

And then ignite again,

Like the sun we will live to rise again. Warm my face

Warm your face

Warm my face

Warm your faceLike the sun we will live to rise,

Like the sun we will live and die,

And then ignite again,

Like the sun we will live to rise.

Like the sun we will live and die,

And then ignite again,

Like the sun we will live to rise again, again.
