

Truth Or Dare

Emily Osment

I got a secret, I'm telling everyone
Don't wanna keep it, I wanna play dumb
I made a promise I think I'm ready to break It's just a question, there's nothing wrong or right
But your intentions keep you up at night
But play with fire you need a way to escape But when the lights go out, go out
We are just beginning
And not a sound, our eyes are looking down
Spin the bottle round and round and round and round Last kiss on the tip of your lips
Really his, now watch your heart beat beating
Time's up, are you ready or not? So don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just I feel uneasy, I feel it in the air
It's too danger, I'm playing unprepared
I try to hide it before I make a mistake But when the truth is out, is out
We're just beginning
Without a sound, our eyes are looking down
We spin the bottle round and round and round and round Last kiss on the tip of your lips
Really his, now watch your heart beat beating
Time's up, are you ready or not? So don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just Well, I'm ready, so ready
So take me on
(So take me on)
You're staring, I'm so trapped
It's on and on and on and on Last kiss on the tip of your lips
Really his, now watch your heart beat beating
Time's up, are you ready or not?
So don't stop when you get that feeling Last kiss on the tip of your lips
Where it heads, now watch your heart beat beating
Time's up, are you ready or not? Well, don't stop when you get that feeling now, now
Tock, tock, it's your heart beat beating
Now, now, it's just a game
