H.O.L.Y

Austin Awake

I remember when I was feeling low I didn't love myself I had nowhere to go I almost gave up 'yeah' that's when you saved us 'yeah' drinking every night so I don't feel the pain don't want to feel no more I almost went insane that's when I found you. I love everything about you my angel everyday I thank god and every time I see you my heart stop I was just a kid with no hope in the world I found you I found life who would of thought

You're holy, holy, holy
I'm high on loving you, I'm high on loving you
You're holy, holy, holy
I'm high on loving you, I'm high on loving you

I believe in fate I believe in soulmates I believe in other halfs that's the reason we were made I believe in know it's a good one when it's a good one I believe in know is a good one when is a good one 'yeah' everyday I thank god and every time I see you my heart stop I was just a kid with no hope in the world I found you I found life who would of thought 'yeah'
