

# My Saving Grace

Bill Lawrence

I've still got a lot to learn  
But, at least I know where I can turn  
When I'm in my times of need  
Just as long as I know all things are possible  
Just as long as I believe, oh yes  
I believe  
I've loved a lot, hurt a lot been burned a lot  
In my life and times  
Spent precious years wrapped up in fear  
With no end in sight  
Until my saving grace shined on me  
Until my saving grace set me free  
Giving me peace  
Giving me strength when I'd almost lost it all  
Catching my every fall, I still exist because you keep me safe  
I found my saving grace within You  
Yes, I've been bruised, grew up confused, been destitute  
I've seen life from many sides  
Been stigmatized, been black and white  
Felt inferior inside  
Until my saving grace shined on me  
Until my saving grace set me free  
Giving me peace  
Giving me strength when I'd almost lost it all  
Catching my every fall, I still exist because You kept me safe  
I found my saving grace within You  
And the bountiful things that you do  
Lord, thank you for delivering me  
And giving me peace, giving me strength  
Giving me hope when I'd almost lost it all  
Catching my every fall, I still exist because You keep me safe  
Always my saving grace pulls me through  
I found my saving grace within You  
Yes, You are  
You're my every, everything  
Only, only You, only You  
My saving grace, Lord, is You
