

Mirror People (Slow Version)

Love and Rockets

I'm so happy with my feet on the ground
So happy, my head spins around
Quite content to sit on this fence
Quite content now a little bit older
The mirror people one day shall be free
The mirror people laugh at you and laugh at me
The mirror people know not how to cry
So they scream, the mirror people scream inside
Because I could be nothing at all
Because I should be nothing at all
I wish I could be nothing at all
I wish I could be nothing at all
Time goes by so slow
When you're stuck to me
Time goes by so slow
When you're stuck to me
Yes, it's true, we're all in a gutter
And yes, it's true please set me free
The Christian said, "I love, love everybody
And you and you and you can be free"
But I'm so happy with my feet on the ground
So happy when my head spins around
Quite content to sit on this fence
Quite content now a little bit older
Because I could be nothing at all
Because I should be nothing at all
I wish we could be nothing at all
I wish I could be nothing at all
Time goes by so slow
When your stuck to me
Time goes by so slow
When your stuck to me
