

Algebra

A Camp

Hey

Jason Derulo

Let's Go!

I got more problems than an algebra equation

They say become a doctor

I don't have the patience

Ain't with the waiting

What's my motivation?

The road less traveled is the one that I'll be takin'

Lonely days

Well the only days I remember

The days I would say

I could be star tomorrow if I really wanted to

I could be a star tomorrow

if I just get rid of you

Haters (Haters, Haters)

Haters (Haters, Haters)

Haters (Haters)

You! (You)

Whatcha trying to prove?

Eyes on me

Like I'm in your movie screen

Damn I know I'm fly (fly)

Ain't got nothing to hide

Want a piece of my pie

Then you got more problems than I

I got more problems than an algebra equation

They say become a doctor

I don't have the patience

Ain't with the waiting

What's my motivation?

The road less traveled is the one that I'll be takin'

Lonely days

Well the only days I remember

The days I would say

I could be star tomorrow if I really wanted to

I could be a star tomorrow

if I just get rid of you

Haters (Haters, Haters)

Haters (Haters, Haters)
Haters (Haters)
Hey! (Hey)
What you trying to say?
Can't get me off your brain
And it's drivin you insane
Damn you know I'm fly

aint got nothing to hide
Want a piece of my pie?
Then you have more problems then I.....
Who's gonna take me?
Who's (Who's) gonna take me (take me)?
Who's gonna take me away from here?
I got more problems than an algebra equation
They say become a doctor
I don't have the patience
Ain't with the waiting
What's my motivation?
The road less traveled is the one that I'll be takin'
Lonely days
Well the only days I remember
The days I would say
I could be star tomorrow if I really wanted to
I could be a star tomorrow
if I just get rid of you
Haters (Haters, Haters)
Haters (Haters, Haters)
Haters (Haters)
No problems
Don't want no problems
No problems
Don't want no problems
Problems
I got more problems than an algebra equation
They say become a doctor
I don't have the patience
Ain't with the waiting
What's my motivation?
The road less traveled is the one that I'll be takin'
Lonely days
Well the only days I remember
The days I would say
I could be star tomorrow if I really wanted to
I could be a star tomorrow

if I just get rid of you
Haters (Haters, Haters)
Haters (Haters, Haters)
Haters (Haters)
No problems
Don't want no problems
No problems
Don't want no problems
Problems
