Roads

Lawson

Hey! Forgive me father
Up all night, I'm going under
But I don't wanna be like you
And you don't wanna be like meHey! I play with matches
Roll that dice and hope for magic
I try to let the river flow
And take me somewhere I don't knowOh oh oh wilde horses in the night
I'm running for my life, yeahI try to give myself away
To give into the chase
Night turns into day (oh)
I drive, I drive into the moon
I pray for something new
No matter what I do
All roads leads to you (oh)
All roads leads to youHey! Can you feel that thunder?
Get in line and take a number
'Cause we don't wanna be like them
And they don't wanna be like usHey! I've crossed the ocean
Wiped my mind with a million potions
Tryna run away for you
It's a game I think I'll always loseOh oh oh wilde horses in the night
I'm running for my life, yeahI try to give myself away
To give into the chase
Night turns into day (oh)
I drive, drive into the moon
I pray for something new
No matter what I do
All roads leads to you (oh)
All roads leads to you (oh)
All roads leads to you (oh)No matter what I do every road leads right back to you
If I win or lose every road leads right back to you
No matter what I do every road leads right back to you
If I win or lose every road leads right back to youOh oh oh wild horses in the night
I'm running for my life, yeah
Oh yeahI try to give myself away
To give into the chase
Night turns into day (oh)
I drive, I drive into the moon
I pray for something new

No matter what I do
All roads leads to you
All roads leads to you
All roads leads to youNo matter what I do every road leads right back to you
If I win or lose every road leads right back to you
No matter what I do every road leads right back to you
If I win or lose all roads leads to you
