

Personal

Jessie J

No I'm not a liar
Just didn't know how to tell you the truth
All we need is time
We don't know why we do what we do
But we do On a night like this
Just don't know what I'm trying to prove
No we can't predict
The reasons why we do what we do
But we do, but we do
Yeah we do what we do
Yeah we do what we do
Yeah we do what we do When you fall in love
You can't help it when you act like a fool
When you look above
You see the reasons why we do what we do
What we do, what we do
Yeah we do what we do
Yeah we do what we do
Yeah we do what we do Ain't got a shotglass in my fist
To spill it away on my business
Telling these strangers about you
I'm getting too, I'm getting too, I'm getting too
Personal, getting too personal
I'm getting too personal, personal
Personal with you Now I'm wondering
They can tell that I've been crying all night?
'Cause I told myself
I don't love you, though I know it's a lie
'Cause I do When you fall in love
You can't help it when you act like a fool
When you look above
You see the reasons why we do what we do Ain't got a shotglass in my fist
To spill it away on my business
Telling these strangers about you
I'm getting too, I'm getting too, I'm getting too
Personal, getting too personal
I'm getting too personal, personal
Personal with you Hear me out, hear me out right now, hey
Hear me out, hear me out now, hey

You've been running through my mind all day
Hear me out now, hear me babyHear me out, hear me out right now, hey
Hear me out, hear me out now, hey
You've been running through my mind all day
Hear me out now, hear me babyShotglass in my fist
So spill it away on my business
Telling these strangers about you
I'm getting too, I'm getting too, I'm getting too
Personal, getting too personal
I'm getting too personal, personal
Personal with youYou've been running through my mind all day
Hear me out now, hear me baby
