## Rainbow

## **Steel Magnolia**

I got a pink slip today
It's time for rent but I can't pay
My car broke down on the interstate

They pass me by 'cause they won't waitAnd oh, all I can think of is you

And oh, well, I know what I'm gonna do

And that is get up, get up, get up, I've got to let it go

Get out, get out, you've got to let, oh noHow you feel when you feel like you do

Got you a faith when you know that it's true

Get up, get up, get up

Because somewhere over the rainbow is you

Over the rainbowTime for everything under the sun

A time for cry and a time for fun

A time to hold back and a time to run

But I know there's someone for everyoneAnd oh, all I can think of is you

And oh, don't care what life must be through

I'm gonna get up, get up, get up, I've got to let it go

Get out, get out, you've got to let, oh no How you feel when you feel like you do

Got you a faith when you know that it's true

Get up, get up, get up,

Because somewhere over the rainbow is you

Over the rainbow, over the rainbowOh, so what if it's rainy and cold?

Oh, when I'm holding my part of gold

And oh, we all have pain

But oh, the sun always shines through the rainSo I get up, get up, get up, I've got to let it go

Get out, get out, you've got to let, oh no

Get up, get up, I've got to let it go

Get out, get out, you've got to let it showHow you feel when you feel like you do

Got you a faith when you know that it's true

Get up, get up, get up

Because somewhere over the rainbow is you

Over the rainbowSomewhere over the rainbow is you

Over the rainbow, over, over the rainbow

You've got to let it go, got to let it go

Over, over the rainbow is you
