Nervous Breakdown

Nerf Herder

Nervous breakdown, come take me away
Nervous breakdown, cafeteria today
I fell down on the floor, oh God I spilled my milk
Someone pull up my pants I think I need some helpNow I can't believe that I'm falling
No I can't believe I'm falling again
Will you visit me at the bottom
Yeah, I'm falling gonna give the devil his duesNervous breakdown, doc what should I do?
Never fall in love with a girl from BYU
She came in the record store and fell down in the stall
Those salt lake city girls play kick ass basketballNow I can't believe that I'm falling
No I can't believe I'm falling again
Will you visit me at the bottom
Yeah, I'm falling gonna give the devil his duesPut the needle down, put the needle down
Put the needle down, put the needle down
Put the needle down, put the needle down
Put the needle down, put the needle, needle down
