

Party Ain't a Party (feat. Gavyn Rhone)

[Keyshia Cole](#)

Been spendin' my years, livin' this life
Givin' you everything and I tried
But you never, love me for who I am
Do you even really know me baby? It seems like it's just a dream
I thought we were meant to be
What once was called love
Ended black and white
And I don't really know you baby But I won't stress the fact
You're now with me, not like that
But you can't go 'cause I'm leaving this time And I know you really know it baby
If you can't tell
If you can't see
Baby I'm the only one you need
Maybe you should go
'Cause I'm about to leave
'Cause this party ain't a party
It ain't jumpin' no more If you can't tell
If you can't see
Baby I'm the only one you need
But maybe you should go
'Cause I'm about to leave
'Cause this party ain't a party
It ain't jumpin' no more When I look into your eyes
I can see the hurt from all the lies
But girl I need you
I need you to understand
I love you baby I won't pretend I don't
Care for ya
My heart it shows
If you want it back
'Cause I need you back
Come on and kiss me on my lips baby I won't stress the fact
If you don't want me
Not like that
But I can't go
'Cause I need you to stay
And I hope that you really know it baby If you can't tell
If you can't see
Baby I'm the only one you need

Maybe you should go
'Cause I'm about to leave
'Cause this party ain't a party
It ain't jumpin' no more If you can't tell
If you can't see
Baby I'm the only one you need
Maybe you should know
'Cause I'm about to leave
'Cause this party ain't a party
It ain't jumpin' no more You never tried, you never tried (to know me)
You said goodbye, you said goodbye (when I needed you the most)
Most than I try, most than I try
So baby why you do it again?
Then I'm gonna try, I'm gonna try to love ya
You said goodbye, you said goodbye when I needed you
Most than I try, most than I try
To be a better man (girl I'll never do it again) If you can't tell
If you can't see
Baby I'm the only one you need
Maybe you should go
'Cause I'm about to leave
'Cause this party ain't a party
It ain't droppin' no more If you can't tell
If you can't see
Baby I'm the only one you need
But maybe you should go
'Cause I'm about to leave
'Cause this party ain't a party
It ain't droppin' no more You aint got nothin' for me
No nothin' for me baby
I don't need nothin' from you
No nothing from you baby You aint got nothin' for me
No nothin' for me baby (baby, yeah, oh baby girl, I know you yeah)
Baby I'm beggin', baby I'm beggin' beggin' baby
Don't be baby (baby I'm beggin', baby I'm beggin' beggin' baby)
Get off your knees (baby I'm beggin', baby I'm beggin' beggin' baby)
Don't come crawling back to me
Can you do that for me
Get off your damn knees
