

If I Don't Be There By Morning

[Eric Clapton](#)

Blue skies upon the horizon
Private eye is on my trail
And if I don't be there by morning
You know that I must have spent the night in jail I got a woman living in L.A
I got a woman waiting for my pay
And if I don't be there by morning
She know that I must have gone the other way Finding my way back to you girl
Lonely and blue, mistreated you
Sometimes I think of you girl
Is it true that you think of me too? Finding my way back to you girl
Lonely and blue, mistreated you
Sometimes I think of you girl
Is it true that you think of me too? I left my woman with a twenty dollar bill
I left her waiting, I hope she's waiting for me still
'Cause if I don't be there by morning
You know that I, I never will And if I don't be there by morning
You know that I, I never will
I never will, I never will
I never will, I never will
