

# Starlight Express

## Shirley Bassey

When the night is darkest  
Open up your mind  
Dream begins, it's becoming clearer  
Listen to the distant  
Listen and you'll find  
A midnight train is getting nearer

### CHORUS:

Starlight express  
Starlight express  
Are you real?  
Yes or no?  
Starlight express  
(Please) answer me yes  
I don't want you to go.

Take me to the places  
I have never been  
Bring me home safely before I wake up  
Cause I believe in you completely  
Though you may be unseen  
This is not the kind of thing that anyone can make up.

(repeat chorus)

### REFRAIN:

You're in need of bigger world to help you,  
Don't you go on worrying deep inside.

(repeat chorus)

### CODA:

My starlight express  
Please answer me yes  
I don't want you to go...
