Rock My World

Five Star

(Leon Sylvers III)You don't get mad, you just get even
For something I didn't mean to do
You just go on different directions
It happens
It happens to be trueBut don't be sad
Don't even get angry
I still believe that we can see it through
Just don't forget
Everything you give you get
And in a while, it all comes back to youYou wanna rock my world
'Cause I'm rocking yours
I would pay those odds every time
You got to know how to dance
before you come to the floor
Now that's the bottom lineBut baby, don't let that guy
Start making you jealous
He knows right now
Why I'm not free
And baby, I bet my heart
When you go out with the fellas, yeah
That you would do the same for meYou wanna rock my world
'Cause I'm rocking yours
I would pay those odds every time
If I didn't know how to dance,
You couldn't get me on the floor
Baby, that's the bottom line, uhYou wanna rock my world
'Cause I'm rocking yours, uh eh
That's all I would hope for
Just stay in love with love
And I'll keep an open door
That's all I ask
So don't keep score, uhJust rock it
Ah!, Uh, hah, uh
Uh, now rock my world
Hah! Uh!Oooh ooh, everybody need someone
They can feel love from
And I'm glad I'm feeling it from you
When it's life or love
I found no reason why we can't continue

As long as you wantYou wanna rock my world
'Cause I'm rocking yours, uh
I would pay those odds every time
You got to learn how to dance
Before you come to the floor, hey!
Remember, let's not keep the scoreYou wanna rock my world
'Cause I' m rocking yours, uh
That's all I would hope for
Just stay in love with love
And I'll keep an open door
That's all I ask
So don't keep score
Come on, rock my world
(Rock my world)
'Cause I'm rocking yours
Hey-ey-ey
You got to know how to dance
Before you come to the floor
Baby, that's the bottom line
You wanna rock my world
(Rocking yours) come on, uh
That's all I would hope for
You got to know how to dance
Before you come to the floor
Now that's the bottom line
You wanna rock, uh (rock my world)
My world (rocking yours)
Come on, uh
That's all
You got to know how to dance
Before you come to the floor
Remember, remember the night is young
(Rock my world) you wanna rock it
(Rocking yours) 'cause I'm rocking yours
That's all I could hope for
Just stay in love with love...
