

# I Feel For You

[Az](#)

Sketchy, witness the relentless, the man hunted tensin'  
The Tek left behind was printless  
Narcs an' Homicide, Feds an' armored rides  
Hell, selacia, I'm vest up, armed to die Forever will glock shots, shoots to kill  
So what the deal? Violate, feel the steel  
The cleverest, so whoever slips, roamin' an' holdin'  
Terrorists born wit dis, gettin' on wit dis Make a move while you fake moves, you an' your frontin' fools  
Dressed upon jewels, livin' on 6 2's  
But now it's on, the end justifies the means  
Lye, smoke an' Cream is all I fiend It's in my genes, I float through the streets  
An' seen an intended European an' 50 coupe, it's green  
Nothin' in between, me an' my team, we're ill too  
Respect due or I feel for you We got this locked now, pure official, white crystal  
The hype'll get you before the snipe from the pistol  
It's potent, just one whiff'll have you floatin'  
Hot an' soakin', while I'm sellin', y'all's is smokin' Forever shinin', except the Blue Diamond's prime an' dinin'  
With wealthy old dime bitches, rich as from cosignin'  
Gold an' American, leave the charge, car holdin'  
I'm rollin', affiliated with those that's ballin' So knowledge me an' analyze my qualities  
You've crossed all apologies, my lifetime policy  
Plus playin' for keeps in these New York streets  
To get deep, so hold heat, try to control your sleep 'Cos, the life I live is deeper than the Mississippi Rivers  
Me an' my niggas only drivin' what a ride give us  
Puffin' lye, gettin' high 'til we die  
So fuck it, whatever, nigga, try to violate an' fry
