One On One

Judas Priest

I am your darkest hour
I am your fall from power
I am the voice you dread and I'm
Screaming out inside your headI am the final count
I am your demons out
I am the worst demise
I'm gonna cut your big words down to sizeWhat is this?
I hear you shout
Face to face
I'm gonna take you outOne on one
Bring it on
One on one
Take me onI am the awful truth
I am the fearless youth
I am the cross to bear
And the one who dares to return your stareI am the fist of God
I am the underdog
I'll always stand my ground
While the others scatter all aroundAgainst all odds
Despite it all
I'm at my best
When I'm against the wallOne on one
Bring it on
One on one
Take me onI am the bloodstained past at last
That's finally caught up with you like
The glint of steel from out of the dark the last thing
You will feel, I'm outgunned, I'm outruned
I'm undead and then I found the skin you shed
I am the questions asked
That send shivers down your backSo I am holding out
And I'm much stronger now
So take me onOne on one
Bring it on
One on one
Take me onI am the darkest night
I am the vipers strike
I'll see you all consumed
As you start to lick

Your mortal woundsLike the condemned man
Who just won't die
Shows no remorse
I'll never walk awayOne on one
Bring it on
One on one
Take me onOne on one
Bring it on
One on one
Take me on
