And I look back upon my time
See the snapshots of my life
You will not be surprised
See your name across my smile
See your name across my smileAnd I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right nowWhen I first came into view
I was older than you knew
Always going out of tune
Any time you'd leave the room
Any time you'd leave the roomAnd I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right nowAnd I look back upon my time
See the snapshots of my life
You will not be surprised
See your name across my smile
See your name across my smileAnd I will remember you
I will remember you
I will remember you
The way you are right now
The way you are right now
