Perfect Angel

Minnie Riperton

What we're making is history
Fooling impossibility
Making love, not a fantasy
Love is true, love is youMaking story book dreams come true
Feeling just enough love for two
There's such magic in being with you
'Cause it's true, loving youAnd I think you are the perfect angel
I think you are the perfect one
I think you are the perfect angel
I think you are the perfect oneLong ago we played hide-go-seek
Kissing under the apple tree
Who could tell me that this would bring
Me to you, you to me, yeahSince the start, you have been my love
Giving infinite paradise
Every night I wanna thank him twice
For your love, your sweet loveAnd I think you are the perfect angel
I think you are the perfect one
I think you are the perfect angel
I think you are the perfect oneMy mama told me if I was goodies
That I would find me someone to love meAnd I think you are the perfect angel
I think you are the perfect little one
I think you are the perfect angel
I think you are the perfect oneI think you are the perfect angel
I think you are the perfect one
I think you are the perfect angel
I think you are the perfect one
I think you are the perfect angel
