

# Last Night

**Buddy Holly**

Last night, as I watched the stars from my window  
I pray Lord above to guide and protect you  
Though I?m not wanted now, I still love you somehow  
That is my only prayer for you  
Last night, as I gazed through the mist in my eyes  
I wanted you here, to hold you so near  
But silence tells me you didn?t hear my plea

I miss you so much since you left me  
My heart ached apart since you left me  
Though I?m not wanted now, I still love you somehow  
That is my only prayer for you  
Last night, last night  
Last night, I prayed for you
