

# City On Fire

## State of Mind

it's like a motherfucking tradition  
just to pwn competition  
and diminish the division  
with presicion my religion  
is a drum 'n bass  
an' i place my lifetime right between them  
like a tingly siphon a white line  
when i recite rhymes cause im speedin'  
take a seat and see that we are seethin' n' rays (?)  
don't let the beats suffocate cause it's fiendin'  
time i'm bleeding rhymes  
hemophiliac rap payin (?)  
pannies i drew blood (?)  
over pannies do stuff (?)  
tell 'im just get bruised up  
you might want to move tough  
out the way i'm burnt to spray 'um  
i'mma clip a lyrics that the critics be sick as hell (?)

you know i like it wild for the night  
and if the cops pull  
tel lthem your state of mind is anarchy  
i'll tell them who we are  
fuckin' anarchy  
set your city on fire  
you know i like it wild for the night  
and if the cops pull  
tel lthem your state of mind is anarchy  
i'll tell them who we are  
fuckin' anarchy  
set your city on fire (fire--> x10 [fade out] )
