Be the One

The Tony Rich Project

Could you be the oneI can think of nothing better
Than to know the one you love
For as long as we've been together
We should open our heart, yeahIf I gave you my heart
Would you be the one that I love?
If I told you my feelings
Would you be the one that I trust?Would you make sure everything's fine?
Would you hold me close through the night?
Would you be the one that I love?
Will you hold me tonight?I feel like breaking down the walls, yeah
Welcome you into my world
I'm not afraid of what you find in me
I just want us to be closer, yeahIf I gave you my heart
Would you be the one that I love?
If I told you my feelings
Would you be the one that I trust?Would you make sure everything's fine?
Would you hold me through the night?
Would you be the one that I love?
Will you hold me tonight?Confide in me, tell me all your fears
I wanna be one that you depend on
Let's share our dreams
Forget about the hard times that we'll face
Let's go all the way, yeah, yeahIf I gave you my heart
Would you be the one that I love?
If I told you my feelings
Would you be the one that I trust?Would you make sure everything's fine?
Would you hold me close through the night?
Would you be the one that I love?
Will you hold me tonight?If I gave you my heart
Would you be the one that I love?
If I told you my feelings
Would you be the one that I trust?Would you make sure everything's fine?
Would you hold me close through the night?
Would you be the one that I love?
Will you hold me tonight?If I gave you my heart
Would you be the one that I love?
If I told you my feelings
Would you be the one that I trust?Would you make sure everything's fine?
Would you hold me close through the night?

Would you be the one that I love?
Will you hold me tonight?
